Title: Load-Independent Inverse Class-E DC-DC Converter

Ayano Komanaka received the B.E., M.E., and Ph.D. degrees from Chiba University, Japan, in 2020, 2022, and 2026, respectively. She is currently a postdoctoral researcher at Chiba University and a Research Fellow for Young Scientists of the Japan Society for the Promotion of Science (JSPS). Her research interests include high-frequency inverters, resonant DC-DC converters, and wireless power transfer systems.
