

PRESENTER CV

Alanood Ali Aljaberi

Master's Student in Electrical and Computer Engineering

College of Engineering, Abu Dhabi University, United Arab Emirates

Alanood Ali Aljaberi is a Research Engineer at GAL Abu Dhabi, where she contributes to research and development projects in advanced science and technology, including engineering prototyping and experimental development. She is currently pursuing a Master's degree in Electrical and Computer Engineering at Abu Dhabi University. She holds a B.Sc. in Electrical Engineering from the Higher Colleges of Technology (HCT), Abu Dhabi. Her research interests include renewable energy systems, photovoltaic power forecasting, statistical forecasting methods, and power system applications. Her current academic research focuses on short-term PV power forecasting under the arid climatic conditions of the United Arab Emirates.

Paper ID: 341

Paper Title: *Short-term PV Power Forecasting Under UAE Arid-Climate Conditions Using Clear-Sky-Informed Regression Models*
